# INTRODUCING HYPER ACTION

HyperAction is a game changing streaming project dedicated to compensating users and streamers through means of cryptocurrency.

Using Binance Smart Chain technology, HyperAction plans on creating a system where users are rewarded for accumulating watchtime from particular streamers associated with HyperAction.

Cryptocurrency is slowly starting to establish itself and be a form of payment in many big industries. Soon cryptocurrencies will be in massive world wide use and we plan to be the pioneers on top when it comes to crypto and streaming. This means we will need to partner with big streaming platforms like Twitch or Youtube.

# HYPERACTION FEATURES

HYPERACTION

## Redistribution & Rewarding

Similar to bits on Twitch, HyperAction plans to do countless giveaways and contest. This means you will have many opportunities to grow your HyperAction portfolio if you are an active participant in the community and It's activities.

## Healthy & Auto Locked Liquidity

The mission of HyperAction revolves around compensating users and streamers through crypto. HyperAction takes a very small percentage from every transaction for the purposes of keeping the liquidity healthy. It is necessary that HyperAction keeps a healthy look in terms of value. This will allow the price to increase without any road bumps.
